Factional Trouble at Chicago.

Delegates to Interstate Commerce Law Convention Not Unanimous.

One Set Would Indorse the President's Ideas and the Others Would Talk.

A New Scheme is Proposed for an Adjustment of Freight Rates.

INV DIRECT WIRE TO THE TIMES.) HICAGO, Oct. 17.-[Exclusive Dispatch.) A split in the convention of the Interstate Commerce
Law Association to be held here October 36 is in prospect. Many delegates are said to be preparing to holt. The trouble was brought about by a section that wants to make the convention a sort of ratification meeting of President Recessvelt's ideas. Anof President Roosevelt's ideas. Another faction wants an unrestricted

other faction wants an unrestricted expression of opinion.

The president of the National Business and Shipping Organizations representing nearly "5 per cent. of the shipping interests of the United States held a meeting today, and drew up a letter addressed to the trade, industrial and producing organizations of the country, in which it is declared that if any attempt is made to shut off debate, another convention will be called.

A new scheme for the adjustment of the question of railroad rates, as an alternative to conferring on the Inter-state Commerce Commission the pow-er to fix rates, is proposed by D. M. Parry of this city, president of the National Association of Manufactur-

He suggests the creation of a bureau of interstate transportation as an adjunct to the Department of Commerce and Labor, presided over by a commissioner, who shall have in charge all differences arising between shippers and the railroads.

If the differences cannot be adjudicated by the commissioner and his assistants, the resolution suggests that they be carried before a special court of transportation, the judges of which shall devote their entire time to the adjudication of such differences.

ENVER (Colo.) Oct. 17,-[Exclusive Dispatch.] H. O. Havemeyer, the sugar magnate, who has returned to Colorado to inspect the sugar factories in the State, says that the beetsugar industry of the West is in grave peril from the prospective removal of the Philippine sugar tariff. He says that labor and living conditions make competition with Philippine sugar by American manufacturers impossible, unless a protective tariff is maintained. Aaron Gove of Denver, who recently returned from the Philip pines, after investigating the sugar industry there for western sugar manufacturers, will go before the Congressional committee as an expert and protest against the lowering or removal of the tariff.

Havemeyer says: "If the government wants to do so much good, it ought to pay attention to people at home, and not to those of some detached colony, filled with a mongrel people, that missionaries are fostering. Let them come to America and help build up this country." BRITISH IN CONFLICT

Work Suspended in a Whole Industrial Quarter.

Forty Injured in Clash of Printers and Police.

Plague Again Appears Along Siberian Road.

(BY THE ASSOCIATED PRESS-P.M.) ST. PETERSBURG, Oct. 17.—[By Atlantic Cable.] Work was suspended in the whole industrial quarter along the Neva above the city today, because the Neva above the city today, because of the strike. The Neva quarter is where the Putiloff Iron Works, the Russo-American Rubber Works and other large establishments are situated, They were not affected by today's strike, but meetings will be held tonight to determine whether the men will go out.

The printers' strike is very thorough, resulting in suspending every newspaper except the Sviet and the Official Messenger. The latter was unable to print the text of the peace treaty,

though it was published in the interior.

In an encounter between the police and striking printers at the Government Bureau of Printing and Engraving, this afternoon, forty persons were injured, but none seriously. The printers attempted to hold a meeting against the command of Minister of Finance Kokovzsoff, who requisitioned police, when the strikers were driven from the building.

The workmen in the Nevsky works, the Schlussenburg road, dissatisfied The workmen in the Nevsky works, on the Schlussenburg road, dissatisfied with the exclusion of the working classes from the Douma, struck today and forced the men in the Pahl cotton mill and other concerns to Join them. The strikers attacked a street car and injured one woman. A regiment of Cossacks and sappers and infantry were called and were fired on by the strikers and stoned. The troops had been instructed not to fire on the strikers and they retired after firing into the air. A Cossack officer and two Cossacks were wounded and a horse was killed.

The printers' strike at Moscow has ended. All the papers will appear tomorrow.

PLAGUE AGAIN APPEARS.

Bubonic plague has again appeared on the line of the Trans-Siberian Railroad, which, from now on, will be crowded with returning troops. A peasant returning from Manchuria, where his brother died of the peat, was taken sick in a village ten miles from the railroad and sent to Nerchinsk, where the nature of the malady was discovered.

The War Office has communicated the news of the ratification of the peace treaty to Gen. Linevitch, who has been ordered to arrange the necessary steps to carry out the provisions for the withdrawal of the Russian troops from Manchuria in eighteen months and the evacuation of Korea, and instructing him to communicate with the Japanese commander, if necessary, Orders have already been given for the return to Russia of the army reserve men and the Thirteenth Corps, which was on its way to the front when peace was arranged.

Though the interned Russian vessels are free to leave neutral ports the date of their departure has not been fixed. The cruiser Lena, now at San Francisco, and the transports, will go to Vladivostok.

Oct. 17.—Russian prisoners from the Island of Sakhalin who took refuge here after they escaped from the island or were landed on the mainland by the Japanese, and whose time has not expired, are being forwarded in large batches to the prison at Stretensk. While here, the prisoners were fed by the Red Cross. Those whose time has expired were permitted to settle in the valleys of the Amur.

The Russian half of Sakhalin is to be opened free to colonisation. It will have a military administration.

Vesseis are leaving here for the purpose of supplying the military postualong the Guif of Tartary, which they expect to reach before the river becomes frozen.

Information from St. Petersburg indicated the re-imposition of customs along the Siberian coast and rivers, which had been suspended for the purpose of inducing blockade running.

the period of stress that prevailed in January and February last.

Beside the tumuit in St. Petersburg and Moscow, strikes and disorders inspired by the events in the latter place are reported from Saratoff, Kieff, Kazan, Kharkoff and other cities, while the strike movement has again broken out in Moscow.

Dispatches from Ekaterinodar, Ruban and Tiflis report troubles in the Caucesus which, however, have no connection with the Russian movement.

A large part of the working people seems inspired by a spirit of unrest. The enovement is largely political and is engineered by the Social Democratic and Social Revolutionary parties, many of the leaders of which deplore the outbreak at this time, as it will interfere with the perfected campaign of the parties during the elections for the Dyuma. They say, bowever, that it was necessary to take advantage of the outbreak at Moscow, even though they were not fully prepared for the movement.

SEATTLE. Oct. 17.—[Exclusive Dispatch.] The Washington State Liquor Dealers' Association, at its State convention, today began a bitter fight against the local-option leaders, who are planning a State compaign against the saloon interests. In Secretary Goebel's report, which the convention adopted, appears this declaration:

"The rule under this local-option law does not work both ways; for instance, Prohibitionists are permitted to carry local option in selected precincts and when they think they are strong enough to have an election in the county, they force people living in anti' precincts to vote upon the question, and, if the county goes anti-prohibition, the precincts remain undisturbed by the result. If this is not an infamous violation of every principle of law and justice, I am at a loss to cite a parallel."

the Superior Court, in a decision which classes the action of the members of the Typographical Union to force a contract for an eight-hour day and for a closed shop upon the employers as unlawful.

In speaking of the demand for a contract for a closed shop and an eight-hour day, which brought shout the present trouble between the union and the printing concerns, Judge Holdom said: "The foundation of the strike in this case is the union contract demanding a closed shop and an eight-hour day. Both the closed shop and eight-hour day are unlawful when it is altempted to force an employer to enter it against his will."

The injunction, as it stands, restrains the union and its members from interfering with the business of or employes of the complainant drms, either by attempting to dissuade the employes from working or from sending out circulars to the customers of the firms, asking them to boycott the strike-bound houses.

UNIONS HUNDRED LESS. UNIONS HUNDRED LESS.

STATISTICS FROM BAY STATE.

(By DIRECT WIRE TO THE TIMES.)

BOSTON, Oct. 17.—[Exclusive Dispatch.] There are about one hundred less trade unions in Massachusetts this year than in 1804, according to the State Bureau of Statistics of Labor, which has just issued a trade directory, based on the census. Nearly two hundred unions have disbanded or surrendered their charters within a year, while about one hundred new ones have come into existence.

The report, in discussing the apparent decline in trade-unionism, says: "Our statistics would indicate a decline in trade-unionism, says: "Our statistics would indicate a decline in trade-unions, a decline or an increase in the membership of the unions would be a better indication, but the fact of membership seems to be one that the trade unions do not care to divulge.

"Enough data was obtained as to the reasons for dissolution of the various unions! to enable us to give the following summary: Lack of interest, internal dissensions, unsuccessful strikes, aim accomplished, small membership, small attendance at meetings, bad management, financial embarrasement and to benefit conditions.

"It is acknowledged that unsuccessful strikes waged within the past year have shaken the stability of unique involved."

CHEYENNE (Wyo.) Oct. 17.—Thirty-four persons were injured, three perhaps fatally, in an accident to the northbound passenger train on the Cheyenne and Northern Railroad, Colorado and Southern branch line, at 10:30 a. m., today, near Horse Creek, thirty-five miles north of Cheyenne. The train was rounding a curve when the amoker and day coach left the rails and rolled down the embankment, a distance of about twenty feet. The locomotive and baggage car had passed over the weak spot in the track in safety. Many of the unfortunate passengers were pinned under seets and in the wreckage and their cries were pitiful.

The more seriously injured are: Miss Clara Hinsky, back injured and probably a fracture of the skull; George Woodbury of St. George, Utah, laborer, injured internally; J. H. A lady lecturer writes from Philadelphia concerning the use of right food and how she is enabled to withstand the strain and wear and tear of her arduous occupation. She says:

Through improper food, imperfectly digested, my health was completely wrecked and I attribute my recovery entirely to the regular use of Grape-Nuts food. It has, I assure you, proved an inestimable boon to me.

"Almost immediately after beginning its use, I found a gratifying change in my condition. The terrible weakness that formerly prostrated me after a few hours of work, was parceptibly lessened by a few days' use of Grape-Nuts and is now only a memory—it never returns.

"Ten days after beginning it I experienced a wonderful increase in mental viger and physical energy, and continued use has entirely freed me from the miserable insomnia and nervousness from which I used to suffer so much.

PROSPECT PARK PEOPLE HOLD HOT ROAD MEETING.

Declare the Streets in Deplorable Condition, and Want to Know What Has Been Done With Money Appro-priated for Improving—Dissatis-fied With Graham.

The Board of Supervisors will be confronted Monday by a committee composed of residents of Prospect Park and requested to shed some light on the alleged laxity of Supervisor A. J. Greham, according to a resolution passed at a meeting of citizens held at the Methodist Church on Edgemont street last night.

Graham will be called to an accounting, provided the members of the committee, do not weaken, and judging from the volley of expressions volunteered at last evening's conference it is a very determined set of property owners who will appear before the board.

is a very determined set of property owners who will appear before the board.

Judging from the difficulties which persons attending the meeting encountered in traversing certain highways approaching the building in which the meeting was held, improvements in the streets and roade running through Prospect Park will be most desirable.

W. D. Fuller presided as chairman and J. B. Chamberlin was chosen secretary. There was little upinoing of words on the part of the citizens present. They unanimously declared the condition of the streets to be deplorable, and passed resolutions to that effect. A committee consisting of Mesers. Hampton. Hovey, Smith, Paul and Fuller was chosen to confer with the Supervisors Monday regarding improvements in the district. At 11 of clock this morning, the committee will meet in the effice of Frank W. Hovey, a member of the delegation, in the Mason building, and discuss their plans.

"I am going to find out what has been done with the money appropriated for use in this district," declared Fred L. Faul, one of the committeemen. "We have been treated shainefully," he continued, "and while some of the residents of Prospect Park do not appear particularly anxious to bring this af-

fair to a climax. I assure you we have some determined people out here.

"The condition of our streets and roads is a positive diagrace," declared the committeman, 'and we shall see whether or not some relief cannot be had at the hands of the Supervisors. As yet we have received no assistance whatever in our improvements, and I propose, if I am compelled to do it singly, to determine what has become of the money alleged to have been spent in our interests."

While the citizens present at the meeting refrained from pointed personalities, it was plain that each harbored the same thought, and every one favored immediate action of some kind. In the resolution passed by the meeting the situation is summed up, in part, as follows: 'It is the sense of this meeting that the streets in the immediate vicinity of Prospect Park are in a deplorable condition.' After enumerating certain principal thoroughfares, the resolution continues: "They are in such condition that travel therein is unsafe, and almost unbearable. Sunset boulevard between Edgement and the new Sunset boulevard should be graded in scoordence with the survey in the office of the County Surveyor, rolled and olied, etc."

"This meeting was called," declared one resident, "for the purpose of accomplishing samething toward the betterment of our conditions, and if this agitation does not suffice we shall adopt some other course.

will report, is the work done by the Woman's Improvement Club of Whittee. This club has secured possession of the old-time home of Pio Pico, former governor of California, which they will preserve and restore to its former condition and make it a place where Californians and tourists as well will love to visit. R is on a good dri ing road between Los Angeles and Whitter, and it a mansion of eighteen rooms. A supper in good old Spanish style will be given soon at the Governor Pico place and the money used to purchase the furniture that was in the house at the time of his residence there. The indefatigable women of Whittier have located asserily every piece of this furniture, and all they lack is the money to buy it. They are asking the support of all loyal Californians in their effort to restore this picturesque old landmark. The Pomona Ebell Club has issued a unique and artistic little year book containing the subjects of California history studies by the History and Landmarks Section. Another club, the Philomath of Los Angeles, is the third to make a record in this direction.

Mrs. W. W. Stilsor chairman of the hewly-created Art section, will have one of the most interesting reports of all, as Southern California has great art undertakings in view.

Mrs. Andrew Stuart Lobengier is one of the strong women of clubdom with a history of usefulness in Coiorade that reads of fine things accomplished; things that the school children of Colorade know about today. Mrs. Lobengier will make her report to the convention on the Department of Education.

that will be an ornament to the city and a credit to the promoters.

There are five or six congregations of them worshiping in halls in different parts of the city, under Rabbis Edelman, Arndt, Solomon, Hirsch-Werner and others, and the congregation Beth Israel in their synagogue at Temple and Olive streets, under Rabbi Myers. The latter house is not large enough to accommodate more than the congregation worshiping there, and the idea is to build so that they might have a center of activity rather than an organic union.

Rabbi Myers, who is at the head of the movement, is an able preacher, who has been prominent among his people throughout America for many years, as leader of the Zionist Association, and he is ambitious to bring his following to the front. They are numerically strong in the city and he feels that they should have a synagogue that will be noteworthy.

NEWMAN'S ANNIVERSARY.

THIN BLOOD—WEAK NERVES

One Follows the Other, but Dr. Williams' Pink Pills Quickly
Cure Both.

The steady use of a particular set of muscles tends to chronic fatigue, which produces faulty or difficult motion, trembling, cramps and even paralysis. Writers, telographers, tailors and seamstresses are among the classes most threatened in this way with the loss of their power to sara a living. The following instance shows that nerve power may be recovered after it seems entirely lost, if the right means are taken. Mrs. O. S. Blacksten, of No. 584 North Bowmans street, Manefield, Ohio, says:

"For years my hands would become so numb at times that I would drop anything I attempted to lift. Later they became so bed that I could not saw any longer, and at last I could scarcely do anything at all with my hands. At night the pricking sensations would come on worse than ever, and my hands and arms would pain so that I dreaded to go to bed. My family doctor gave means nerve tablets. They helped me a little, but only for a short time after I had taken them and if I happened to be without them for a day or two I would be as bad as ever or even worse. Finally I got a box of Dr. Williams' Pink Pills and began to take them.

"The result was surprising. By the time I had taken the last pill in my first box I could me a gain. Thanks to Dr. Williams' Pink Pills feed the nerves by making new, rich bleed and in this way have cured nervous diseases of overy description from simple restlement to paralysis. They have banished the tortures of neuralgia, the weakness of nervous prostration, the disability and swynl pain of locomotor ataxis. They are sold by all druggists or direct by the Dr. Williams Medicine Ompany, Beheusotady, N. Y.

Bhas never been asserted that Dante was acquainted with the Chippewas, but there are many things in the "Inferno" that agree with the beliefs of those Indians generally if not specifically. For example: The Chippewas' notion was that after death they arrived at a large river on which they embarked in a stone cance. A gentic current bore them to an extensive lake, in the center of which was a most beautiful island. Within sight of this island they received the final judgment. If the good in their lives outweighed the bad, they were landed upon this paradise, where they enjoyed eternal happiness of a sensual and carnal kind; if the bad overbalanced the good, the stone cance sank at once, leaving only their heads above water so that they could be tormented for all time by seeing the happiness of the good and by hopeless struggling to reach the bilssful ground.

Has a Model Water System

One of the leading hydraulic engineers of California mays: "The source of the Montebello water supply is the first to be replenished and the last to be depleted in the operations of Nature, and affords a degree of security to the consumer that no mountain stream, subject to the caprices of season, can equal."

The photograph herewith shows one of the mammoth triple expansion pumps used to lift the water to the reservoirs. Experts have declared the machines to be the best ever installed on the Coast for irrigation purposes, both in point of workmanship and efficiency. The quantity of water, flowing continuously, is equivalent to four inches of rainfall once a month on the whole tract.

Montebello is just at the gates of the city—one of the most fertile tracts in the Southwest. Five acres here, if properly developed, will yield a substantial income. Prost is unknown. It is an ideal location for the small rancher, the berry and fruit grower, truck gardening, poultry and pigeon culture, and for beautiful country home sites.

Geo. L. Cross of Montébello, says: "To my mind no other section of California equals Montebello. We have more water than we can use. It certainly suits

you. When monthly periods are painful or irregular, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Gave Me New Life and Vigor

Dean Miss. Pinkman: — Last spring, while we were moving, I did considerable more work than my strength permitted, and, having mental trouble at the same time, my health broke down completely and I found myself unable to rest or eat. My nerous system became shattered and I was pale and emaclated and had to take to my bed. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and, although I had no faith in patent medicines, I was so miserable that I would take anything for relief. I found that it made a complete change for the better, inducing appetite and restful sleep and imparting new life and vigor to my entire system.

I gained nearly fourteen pounds, my complexion looked fresh and clear, and my best friends were surprised and pleased at the change and could hardly ordelt the fact that Lydia E. Pinkham's Vegetable Compound had accomplished it.

Heart Weakness.

Dr. Miles' Heart Cure has made many hearts well after they have been pronounced hopeless. It has completely cured thousands, and will almost invariably cure or benefit every case of heart disease.

every case of heart disease.
Short breath, pain around heart, palpitation, fluttering, dizzy, fainting and smothering spells should not be neglected.
Take Dr. Miles' Heart Cure and see how quick you will and see how quick you will be relieved.

It cannot make a new heart, but will restore a sick one by strengthening the heart nerves and muscles, relieving the unnatural strain, and restoring

unnatural strain, and restoring its vitality.

"I had a very bed case of heart trouble. For six months i could not rouble. For six months i could not and seeling bedry were plowing core and seeling bedry to be a proving core and seeling bedry to be a proving or a proving core and seeling bedry the see a proving the seeling bedry down, or fall down, three times. My beart throubed as though it would burst through, and I had difficulty in getting my breath. I purchased a bottle of Dr. Miles' Heart Cure, and before I had used half of it I could lay down and siese all night. Previously I had to get up from five to ten times a night. I have taken several bottles, and my heart is as regular as and my heart is as regular as and an work considerable for an call man, 1816, years old."

Dr. Miles' Meart Cure is noted by your druggist, who will guarantee that the first bettle will benefit. If it falls he will refund your manny.

Nau's Dyspepsia Cure

ubdues the local inflammation due from deranged stomach, which accuses a starrhal condition and which in turn presents the proper flow of the gastric jules ausing all kinds of stomach troubis.

NAU'S DYSPEPSIA CURE

is certing numerous of the cases, supposes to be incurable, cases of 19 to 29 years standing.

"I derived the greatest possible benefit from the use of Nau's Dyspepsia Cure. I began the use of it, I think, in February last, at a time when it seemed as if I should have to give up trying to get well, but obtained almost immediate relief. For exertaily have my everlasting gratitude for furnishing use with a temedy that relieved me of the greatest suffering I was ever compelled to endure. Resembled in the parties to whom I recommended Nau's Dyspepsia Cure, a chronic dyspeptic found equally, or hearly as good results as I did; and another, whose difficulty was in the early stages, obtained immediate and lasting relief.

The arrivals of last night and up to daylight this morning added another fleet of eight ships.

Never in its history has the port of San Pedro seen such activity. It is but an earnest of what is in store for the port of Los Angeles as the deep-water harbor nears completion, and the ships of the Pacific turn their sails to catch the winds for this mart of commerce.

The sixteen vessels which lay in the outer harbor yesterday morning were all carrying full cargoes of lumber. They floated fully 15,000,000 feet, which estimated at an average rate of 420 per 1000 feet, showed a valuation of 1350,000. An average carload of lumber contains 15,000 feet; so that the vessels which lay outside, awaiting a chance to dock, carried at least 1000 carloads of lumber for distribution from San Pedro wharves.

When he arrived, the four were lying
at the side of the road.
The worman rose on her elbow and
said:

The woman rose on her elbow and said:

"For God's sake, send for a doctor, quick; This is terrible."

Dr. F. P. Cave, who lives near by, was hastily summoned. He found that Jones was severely injured about the head, both his eyes were covered with blood and dust, and he was rolling on the road in agony calling for help. On a cot in another room Nelson lay and mouned in pain. Over and over again he repeated:
"Why did I go? Oh, why did I go? Why heart is broken. This is the limit. Why did I take that last drink?"
Gasing wildly around the room, as if searching for some one, he called out:
"Where is she), where is she? For God's sake don't fail."
To one who alded him, Nelson said he lived at the Hotel Palms, No. 618 Bouth Broadway. At the hotel nothing is known of Nelson.
"HELL TO PAT."
Toward midnight a man came to the hospital who gave his name as Ed. W. Hearst. He said the automobile belonged jointly to himself and Jones. He went to the cot where his partner lay and said:
"Don't tell a word of this to the re-

ability that he will be called upon to face more serious charges than simply speeding his machine beyond the limit. There is no record of either Jones or Hearst having taken out a license. It will be floored over and a curious kind of workshop installed for the benefit of the hobos who try to "work" the mission this fail.

There they will be offered work, and turned out if they refuse it.

Such men as really want work and can't find it, will be supplied here.

Old chairs will be gathered up over the city to be seated here; old boxes will be found for the lumber; rags will be picked, etc.

Judge Wilbur of the Superior Court has donated \$150 to start a fund to fit up a boys' club at the mission.

Funds will also be sought to establish a playground and gymnasium at the Stimson-Lafayette house. The Playground Committee is greatly interested in this project, but of course has no authority to divert public funds to it.

Greene Says Mother-in-Law Wants His Wife.

Suit for Ten Thousand Sorra End of Romance.

Hari-Kari of Bride's Father. in Background.

"The old lady needs Helen so she can get the overflow of admiration." Greene says that this is the sixth time his beautiful young wife has left him in a year; and the excitement's beginning to wear off.

He says the girl never would have left of her own accord, but her mother wanted her to go on the stage.

"Mrs. Goff was sore at me because I wouldn't let Helen go on the stage. I wouldn't let any wife of mine go into that kind of a life."

Greene contemplated the back of his fast young trotting horse gloomily as he said:

lonely without her.

Greene has also won considerable newspaper attention on account of his frensied finance, which is said to have distressed the girl's people.

Naturally none of her friends regard seriously Greene's amusing theory of the mother's attempt to get the girl back.

The claim of Craig is that he purchased 20,000 shares of the capital stock of the Oceanic Oil Company, and in payment transferred \$1000 worth of property. When he went to have the stock transferred on the books of the company, he alleges that he was met with a refunal, and that led up to the present trouble. The company claims, on the other hand, that the transfer would not be made until an assessment of 3 cents per share which incumbered the purchased stock, had been paid, and that Craig refused to pay any assessment.

wise to leave, and lose no time about it?

Thus declared Police Justice Rose in a battery case brought before him yesterday afternoon, when Harry Dale, a painter, sought to secure the infliction of some penalty upon J. B. Cook, secretary and manager of the Los Angeles Construction Company at No. 702 South Spring street.

The complaining witness told a lurid story of having appeared at Cook's office for the purpose of securing some money. A check was duly tendered him, and he then remained in the place for the purpose, so he avera, of arranging for the payment of funds to one of his men. Cook ordered Dale to leave the premises, and the latter demurred. Dale alleges the contractor then rushed him with a paperweight, and forcibly elected him from the place.

"How long a time elapsed after you had ben invited to leave before Mr. Cook came toward you?" questioned the court.

"Well, it must have been two minutes, anyway," replied the complainant.

It was then shown that Dale had oc-

The first preliminary turned out wrong, for Mansfield failed to show up and his opponent, Daniher, went on for a six-round exhibition with one of the Tremble boys. The ten-round preliminarly between Rube Jeffries and Warren Zubrick didn't last but two rounds, for Rube was badly outclassed, wild and awkward and was knocked out in the middle of the second round with right and left punches on the jaw. He was knocked down for the count of eight and when he got up he wobbled into two stiff swings on the jaw and it was dreams with Rube, just long enough to be counted out.

The entertainment was certainly a good one, for the main event was a corker, and the spectators forgot the first two scraps in the excellence of the last.

Brown's in town, and if there is any doubt about, it further information might be gained from the Looloos who fattened their part of the percentage column off him yesterday in a most delightful manner. There was more excitement for him for about five minutes than there is in the Sixth Ward when the Council meets, and he made as much of a show of himself as the agitators do down in that hot-bed of "ferninst everything." The Tigers really lost the game before it had fairly commenced, and in that defeat the locals go up one step nearer the pennant, which begins to look a little familiar to us now.

And public opinion will not be satisfied with any kind of remedial legislation which will fail to remedy the gross evils from which the public has so long suffered. Senator John F. These disclosures have to stiffen French public sentient against the dragooning policy they have had the effect of intensifyng the desire for an alliance with ia, for the disagreeable truth is not denied that, if the exasperation caused by the Tangler incident had actually precipitated war, Germany would have been caught in a bad po-sition, her navy, her colonies, and her

For a long time a conviction has been growing in the public mind that the national government ought to establish some sort of regulation over the business of life insurance. This conviction, needless to say, has been greatly strengthened by the astounding revelations that have been brought to light through the legislative investigation which is still in progress. The intense public feeling on this subject is practically sure to eventuate in the enactment of a Federal law which Germany, and thereby virtually flingtle, or at least keeping the whole of Europe in distrustful and armed preparedness for war. Russian finances are in no condition to accept such strain, and the distracted internal condition of Russia calls clamantly for peace. Moreover, pan-Slavism and nor peace. Moreover, pan-susymm and pan-Germanism are opposing currents in Central Europe, and how they can be made to run together as one presents a baffling problem of politithe line of least resistance, which is stantinople, and thence through Asia Minor to the Persian Gulf. But this which Russia claims as her own, and per aspirations as a great worldpower are to be fulfilled. duce it, with some modifications at the coming session of Congress.

Senator Dryden declares that the bill will be introduced on behalf of the policy holders of all American insurance companies, "in the firm belief that their present and future interests demand the additional protection of a Federal statute regulating insurance transactions between the States, in addition to such supervision and regulation as constitutionally belongs to the States from which the companies derive their charters." Some unnecessary State supervision will be aboilshed in consequence of Federal supervision, as a matter of course, Among the benefits which Senator Dryden anticipates as a result of his bill, if it should pass, "It has been put through," an-nounces the Bosotlan yet amusing Oxesa. "Against the alm protest of the people, the Council has voted to accept the North Main street site, and remove the City Hall to a place far outside the retail business

Yes, deplorable as the transs may appear through the lachrymose eyes of Earl and his small group of fellow-mourners, it has been "put through."

Alas, and alack! The tears, expostu ations, remonstrances and pleadings of Eddie and his coterie were of no avail. The hard-hearted, hard-heade Council saw fit to accept a sound bust ness proposition by which the city will be benefited to the extent of from \$200,000 to \$250,000. The city, in con equence, has for sale a City Hall and the ground upon which it stands, and is likewise the owner of a better site upon which to build a new City Hall, which will not cost the city a nickel.

How did Eddie Earl and his absurd Oxpress learn that this thing was "put through" "against the almost unanimous protest of the people?" Like the three tallors of Tooley street, he talks about "we, the people," but he really means "we, the Oxpress." If the question of accepting the North Main street site were submitted to popular vote, it would be indorsed by a large majority of the citizens of Los Augales.

Again, what matter if the City Hall

were to be removed (which it is not.)
"to a place far outside of the retail
business district?" What particular
connection is there between the City of

Hall and the retail business district? The two do not go together in any way. Their objects and purposes are in every respect dissimilar.

SPHERE OF WOMEN'S CLUBS.

Sever since women's clubs were
first organized, they have been the
subjects of discussion and criticism. As institutions, they have their friends, as well as their enemies. In some quarters they are highly favored. while in others they are almost bitterly source of supply for the wit of the must be made. There are half-a-dozen jokesmith and the newspaper para-acute questions that may at any mo-ment compel a clear declaration of a statesman as Grover Cleveland has policy, among them the seething un- thought it worth his time and effort to

the life of the age.

We think we may as well admit to ourselves and to all who may make inquiry of us, that the women's clubs inquiry of us, that the women's clubs are here to stay, no matter what may be our differing opinions as to the wisdom of their continued existence. This being the case, perhaps the best thing, therefore, that we can do is to devote ourselves to an effort to help them to be what they aim to be—useful, helpful and forceful institutions working for the good of mankind and the betterment of the world. In the furtherment of this effort we shall doubtless sometimes find it necessary to offer to women's clube in general, and some of them in particular, our well meaning counsel and advice—things which the women can take or leave as they see fit, but which can do them no harm, in any event, seeing that advice is always offered free of charge, and is about the only commodity that can be had on those terms as the times are at present constituted.

Apropos, here is a sample of many letters which the editor of the Times: To the Editor of the Times: In noticing the proceedings here and elsewhere of the various women's organizations, it has often occurred to the writer, and doubtless to many others, that instead of occupying their valuable time in discussing and studying subjects such as irrigation, politics, civic matters, juvenile cours, non-partisan school boards and like matters but on the matters which men have originated, evolved and mastered to a great degree, and will continue to master and improve, it would be wiser for women to confine their efforts to masters and improve, it would be wiser for women to confine their efforts to masters and improve, it would be wiser for women to confine their efforts to masters and improve conomy, hysiology, but the province and which men have originated, evolved and mastered to a great degree, and will continue to master and improve, it would

evolved and mastered to a great degree, and will continue to master and improve, it would be wiser for women to confine their efforts to matters in their own province and matters which more directly affect their sex, like domestic economy, hygiene, physiology, anatomy, the relation of the sexes from a fair, honorable and equitable standpoint, the education of their sex to the necessity of thorough and proper ventilation and cleanliness of their homes, and thus aid in the eradication of consumption, diphtheria, scarlet

and typhoid fevers and other diseases. And finally, but also of very gest importance, the wise regulation of that social horror, the social evil, shearing it to a great degree of its far-reaching, baneful, injurious physical and mental effects, and preventing our people from falling into the sad condition of some of the older European settlements. Thus both sexes could work peacefully for the betterment of the whole.

This letter is of course, from a man,

This letter is, of course, from a man and among other things it shows how women's clubs movement. The old reading room is being redecorated and refurnished in handsome Flemish cak and transformed into a grill room, which will be used almost exclusively by women members of the club for luncheon-giving and matines breakfasts. A detatched addition is also being made for the use of the caretakers of the clubhouse. This is to be made sufficiently artistic and substantial to be used as a portion of the new clubhouse which the club realises will soon be a necessity, although no plans are outlined for its immediate construction.

There are now posted for membership an unusually large number of names and these will be voted upon before the opening function.
